## Chrysanthemum Cuttings

Our list of Mum and Pompon Cuttings is probably the most complete that is published. It includes all the latest varieties, also all the well known standard kinds that are in demand. Cuttings are shipped by the largest propagator in the country, where every care is exercised to deliver only first class, well rooted, clean and healthy cuttings. Many growers are realizing that it is cheaper in the long run to buy their cuttings than propagate their own. Orders placed in advance can be delivered exactly when wanted, and planted right in the bench, insuring rapid, healthy growth without any check.

We sell 250 of a variety at the 1000 rate, smaller quantities taking the 100 rate. If order totals 1000 in all regardless of the number of varieties selected, we will bill at the 1000 rate, provided not less than 25 of a kind is ordered.

**NOTE CAREFULLY.** Cuttings are put up in bundles of 25, any change means additional expense and the following schedule shows price per cutting which will prevail where less than 25 of a variety is ordered. Orders for less than 5 of a variety are not solicited.

Where Price Per 100 Is	Price Per Cutting Will Be	Where Price Per 100 Is	Price Per Cutting Will Be
\$3.25	5 cents	\$7.00	12½ cents
4.00	5 cents	8.00	15 cents
6.00	10 cents	12.00	20 cents
		15.00	25 cents

## Carnation Cuttings

In order to be prepared to meet present day conditions, the Carnation grower must grow those varieties, which because of their vigor, productiveness, quality, and appeal, will lower growing costs and give a better return per square foot. The standard varieties listed in this book will help solve your problem in selecting kinds to grow, as they have been thoroughly tested by hundred of growers and have proven to be leaders in their color class. Every variety may not do well with any one grower, but each variety has been grown successfully by enough growers to justify our recommending it to you.

Orders are filled by firms who specialize in the cuttings business, delivering clean, vigorous, well rooted cuttings.

**NOTE CAREFULLY.** Small orders are welcome but not for less than 25 of a kind. We sell 250 of a variety at the 1000 rate and 50 or more at the 100 rate.

**COMPLAINTS** on shipments of both mum and carnation cuttings must be made on receipt of shipment. If it is evident that the express company is at fault, notify agent at once and ask for a report on condition of shipment, which can be used in filing claim. Should the complaint be on account of quality of the cuttings (which seldom happens) we will take same up at once with the shipper and get a prompt adjustment.

NOVELTY MUMS—DE PETRIS INTRODUCTIONS

**PENROD**

Medium-sized Pernet yellow. Very fine incurved form similar to the old variety Bonnaffon. Possesses good substance giving the variety good keep-

ing as well as good shipping qualities. A free and easy grower with good stem and foliage. Will produce three blooms per plant with remarkable uniformity. A very attractive looking variety that should be useful to growers desiring moderate size together with excellent form and good substance. Matures Nov. 10th but can be easily held for a week later.

Strong wiry stem and small foliage which seems to fill out and stiffen as the flowers mature. It is very easy to grow and quite resistant to disease. Produces two blooms to the plant very uniformly. Blooms possess excellent substance and ship extremely well. An excellent and profitable variety for both wholesale and retail grower. Matures Oct. 25th.

NOVELTY POMPONS—DE PETRIS INTRODUCTIONS

**EUROPA**

An intense cardinal red single of outstanding brilliance and exceptional substance. It may be grown either as a single disbud or as a disbudded spray. The color improves any existing red single.

A very brilliant red on the inside of the petal and a gold on the reverse. Europa might be said to mark an epoch in red singles. Its growth habit is medium in vegetativeness. It is fairly easy to grow. The spray formation is stiff and rigid. It must be carefully spaced, carefully pruned and accurately disbudded. We believe it will well repay any man who will give it this kind of cultural treatment. Matures Nov. 5th.

**Price for Rooted Cuttings:**  
**\$2.50 per 10, \$15 per 100**  
**\$125 per 1000**

**ORANGE BELLE**

Small flowered pompon with good form and substance. Color reddish orange rust. Very free growing habit with small but very persistent foliage. Good spray formation on wiry stems which attain a good length. This variety is outstanding in growth and the attractiveness of its clean stems and foliage. We believe this will prove a profitable variety for the grower. Matures in late November and early December.

**Price for Rooted Cuttings:**  
**\$2.50 per 10, \$15 per 100, \$125 per 1000**

NOVELTY POMPONS—YODER INTRODUCTIONS

CAMEO

An ivory pompon of unusual size and substance that blooms the same time as Yuletide, Cordova and Silver Star. A strong persistent grower possessing a rigid and well spread spray. The growth habit is superior to any worth while variety in its color class and blooming season. The flower is large and of an attractive form. It should be the answer to the grower who demands a white or cream pompon for early December that will provide him with quality, production and reliability. Matures December 5.

**Price for Rooted Cuttings:**  
**\$2.50 per 10, \$15 per 100**  
**\$125 per 1000**

MATADOR

A rich red anemone of large size and after the style of Crimson Glow. It improves that variety in every respect. The growth habit somewhat resembles that of Valencia except that it is not so vegetative. The stems are stiff and straight with the flower held rigidly and erect. The form is excellent, color is very bright and vivid. For disbudded sprays plant 7 x 8; pinch July 25th; grow 2 stems; 3 flowers per stem. As a single disbud, plant 7 x 8, last pinch August 5th; grow 3 stems. Matures December 5th.

**Price for Rooted Cuttings:**  
**\$2.50 per 10, \$15 per 100**  
**\$125 per 1000**

NOVELTY POMPONS—YODER INTRODUCTIONS

## SONATA

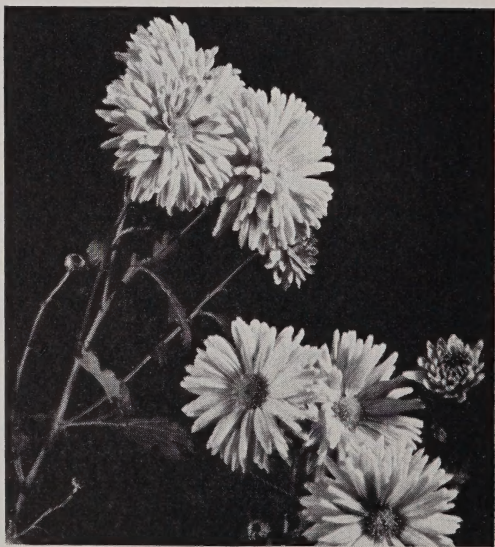

A very brilliant orange bronze single. The flower has a star-like appearance that enhances the beauty of any design, basket or bowl into which it is placed. The color is brilliant to the last; its keeping qualities are unusually good. Its growth habit is decidedly vegetative. It is a very easy doer, a heavy producer and it is very popular with the retail trade. Plant early on raised benches; last pinch August 1st. Matures December 5th.

**Price for Rooted Cuttings:**  
\$2.50 per 10, \$15 per 100  
\$125 per 1000

## ROSALIND

A pink single that might be described as a Pink Yukon. The color is a clean medium pink. The growth habit is excellent; a very free grower; medium sized stem and foliage; no tendency to blindness; it flowers at a time of the year when pink is scarce. It appears to do almost equally well under either ground bed or raised bench environment. Matures December 20th.

**Price for Rooted Cuttings:**  
\$2.50 per 10, \$15 per 100  
\$125 per 1000

NOVELTY POMPONS—YODER INTRODUCTIONS

**AMBERLITE**

A bright orange bronze single of excellent substance and easy culture. It is a good producer and a strong persistent grower that is not exacting in its cultural requirements. Does not require disbudding; best in natural sprays. Do not overcrowd; plant 7 x 8; grow 2 stems. Matures November 25th.

**Price for Rooted Cuttings:**

**\$2.50 per 10, \$15 per 100**

-----  
**YELLOW SNOW**

A bright Pernet yellow sport from Snow. The form and growth habit are identical with the original. Because of its season, December 30th, heavy production and excellent color this variety will prove to be one of the most valuable additions to the late pompoms.

**Price for Rooted Cuttings: \$2.50 per 10, \$15 per 100, \$125 per 1000**

**BRONZE PROSPERITY**

A deep orange bronze sport from Prosperity. The color is excellent. Growth is identical with that of Prosperity. Best grown on raised benches, or if in ground beds, plant early. Last pinch July 20th. Matures December 10th.

**Price for Rooted Cuttings: \$2.50 per 10, \$15 per 100, \$125 per 1000**

It must be planted close to secure production. Use soft cuttings, clean rich soil; preferably ground beds. Pinch once about July 25th. Plant 5 x 8; grow 2 stems. Matures November 25th.

**Price for Rooted Cuttings: \$2.50 per 10, \$15 per 100, \$125 per 1000**

# Carnations for 1942

## New and Recent Introductions

Introduction of new varieties of Carnations is necessary even if they are not always a great improvement on the variety they are meant to replace. The reason is simply that vegetative reproduction is necessary as Carnations will not come true from seed. After propagating by cuttings for a number of years a variety deteriorates. Some last longer than others, but sooner or later they must be replaced, therefore, new varieties must be introduced year after year if we are to maintain the present standard.

**BEUERLEIN'S CRIMSON.** A new and outstanding crimson variety. The color and form are the same as Woburn, but the flowers are not quite as large. The variety is much earlier and freer than Woburn. The quality of the flowers is high, the calyx never splits, the stems are long, and the keeping quality is excellent. The plants are free and vigorous, and the variety is very prolific. This is perhaps the most profitable carnation in this color class.

**\$3.75** for 25

**\$12.00** per 100

**\$100.00** per 1,000

**CHARM** (Patented). A new salmon pink variety with a flower nearly as large as Laddie and with a little darker color. It grows tall and has a very stiff stem. The plants grow well either in the field or planted indoors. This is the variety for those who desire the highest quality.

**\$6.00** for 25

**\$20.00** per 100

**\$150.00** per 1,000

**DARK PINK MAYTIME.** A deep pink sport of Maytime and has the same characteristics as the parent plant. The flower has the same form and substance but is a little larger than Maytime. Production is much higher than is that of the average variety. Plants grow tall and erect, allowing close planting. It is a very rapid growing variety. The keeping quality of the flowers is outstanding. The first flowers are medium pink, similar to Pink Treasure, but darken rapidly so that within two or three weeks they are the color of Boston Ward, and they remain that color.

**\$2.50** for 25

**\$8.50** per 100

**\$75.00** per 1,000

**HERMOSA.** A large and beautifully formed light pink seedling. The color is richer and slightly deeper than that of Virginia. The plants are vigorous and free, stems are long and the calyx is firm. Production is good, and the flowers keep perfectly.

**\$2.50** for 25

**\$8.50** per 100

**\$75.00** per 1,000

**POLLYANNA** (Patented). Will meet the demand for a salmon flesh color which will compare favorably in quality with the leading commercials and yield sufficiently to be profitable to grow. Being a seedling from Light Pink Abundance crossed with a seedling variety insures its productiveness, the growth being somewhat sturdier and slightly shorter in stem. The bloom is good sized and symmetrical and keeps exceptionally well. The calyx does not split. The color is a good Laddie shade of salmon flesh which holds its freshness late into summer.

**\$4.50** for 25

**\$15.00** per 100

**\$125.00** per 1,000

**SEA SHELL.** A large, well-formed, full-petaled seedling having a lovely and delicate shell pink color. Plants of this variety are especially fine, being large and bushy, vigorous and absolutely clean. Stems are long and stiff, but not brittle. The calyx does not split at any time. Production is good, and the flowers keep and ship well. It is an easy variety to propagate and grow. The color is lighter and softer than that of Virginia or Maytime.

**\$2.70** for 25

**\$9.00** per 100

**\$80.00** per 1,000

**STAR DUST** (Patented). Pure white flower of corsage type, 3½ inches in size and remains large in warm weather. Stem is strong, carrying flower erect and growing habits are good, plant being free from disease.

**\$6.25** for 25

**\$20.00** per 100

**\$150.00** per 1,000

**WHITE PETER FISHER.** A pure white sport of Peter Fisher. The bloom resembles an improved Ivory, but the stem and foliage are much heavier. It is a clean, vigorous variety, easy to grow and entirely satisfactory.

**\$2.50** for 25

**\$8.50** per 100

**\$75.00** per 1,000

## Novelty Carnations

**BARBARA BRIGHAM.** A sport of Golden Wonder having flowers which are a beautiful light apricot with pink pencilings. The form, size and habits of growth are the same as those of Golden Wonder. It is a good producer and a good keeper.

**\$1.80** for 25      **\$6.00** per 100      **\$50.00** per 1,000

**CHIEF KOKOMO** (Patented). The pink markings on the yellow background awakened both the florists and the public to the novel colors and combinations that carnations possess. The flowers are larger than average and the stems are stiff.

**\$3.75** for 25      **\$12.00** per 100      **\$100.00** per 1,000

**GOLDEN WONDER.** One of the best of the Yellow variegated varieties. The color is sulphur yellow with pink pencilings. The blooms are large and full with fringed petals. Production is better than average, and the keeping quality is fine. Splitting is slight.

**\$1.80** for 25      **\$6.00** per 100      **\$50.00** per 1,000

**IMPROVED DELICACY.** A sport of Delicacy, having the same characteristics as the parent except that the pencilings on the white petals are a much darker red than was the case with Delicacy. The flower is compact and beautifully formed. Stems are of medium length.

**\$2.25** for 25      **\$7.00** per 100      **\$60.00** per 1,000

**LENORA.** A white variegated with pink pencil markings. The flowers are average size and the variety is a good producer. The retail grower will find it very valuable.

**\$1.50** for 25      **\$5.00** per 100      **\$45.00** per 1,000

# LINDIG SOIL SHREDDER

In these days of scarcity of men and higher wages any labor saving device should be a boon to the average florist. With a Lindig Soil Shredder you can easily shred and pulverize three to four times the soil that can be screened by hand in the same time. The soil as it leaves the machine is of about the same consistency as soil put through a 1/2 inch screen; however, the soil is lighter than if it had been screened because the momentum of the beater drum creates a wind suction that blows the soil out and tends to fluff it. The machine is fool-proof, sturdily built and will keep two men busy throwing sod, soil, manure, peat or other material into the hopper.
